CENTER CEMETERY

This cemetery is located on a side road just west of the center of Peru, and it is on a hillside plainly visible from the center, which consists of a church and a town hall and a few houses, also a schoolhouse. It is not in a good state of repair. Many of the stones are flat on the ground, and no mowing has been done. We tried to divide it into sections, but it was almost impossible. At some time there evidently had been driveways, and the first section is west of the driveway, starting at the west side of the cemetery and copied by rows parallel with the front fence from front to back, as much as possible.
